SORNA MAHI S A

M.Tech – CSE (Integrated) | Nagercoil,TamilNadu | +919789370283|sornamahisaravanan@gmail.com

github.com/mahi24705 | linkedin.com/in/sornamahi24

OBJECTIVE

M.Tech Computer Science and Engineering student with a strong foundation in Python, Java, and software development.Interested in Artificial Intelligence, Machine Learning, and Natural Language Processing to develop intelligent applications and AI-powered solutions.Seeking an entry-level AI Engineer role to apply programming, analytical, and problem-solving skills AI innovation

TECHNICAL SKILLS

Programming: Python,java JavaScript
AI & Machine Learning: AI/ML Fundamentals, Machine Learning Concepts, Data Preprocessing
AI Technologies: Natural Language Processing (NLP), Retrieval-Augmented Generation (RAG)
Database: MySQL, SQL
Web Technologies: HTML, CSS, React.js, Spring Boot, REST APIs
Testing: Manual, Functional, Regression, Smoke, Selenium, Playwright (Learning).
Tools & IDEs: Excel,Power BI,Git, GitHub, Postman, MySQL Workbench, IntelliJ IDEA, Visual Studio Code

EDUCATION

- **M.Tech** (5-Year Integrated) in Computer Science and Engineering |Erode Sengunthar Engineering College, Erode 2022–2027
  CGPA: 8.0/10 (Up to 8th Semester)
- **HSC**-DVD Higher Secondary School, Nagercoil-72%
- **SSLC**-DVD Higher Secondary School, Nagercoil-60%

INTERNSHIP EXPERIENCE

Full Stack Development Intern | NITTTR, Chennai. Feb 2026 – Mar 2026
- Gained hands-on experience in React.js, Spring Boot, Java, and MySQL.
- Developed the NITTTR Portal with CRUD functionality and frontend-backend integration.

In-Plant Training Student | NPCIL, Kudankulam. Dec 2024
- Learned networking, firewall configuration, and DBMS concepts.
- Gained knowledge of nuclear reactors, turbines, power generation, and safety processes.

Full Stack Development Intern | AK Info Park, Nagercoil. Oct 2024 – Nov 2024
- Gained practical exposure to web development and database concepts.
- Developed technical and problem-solving skills through hands-on internship activities.

PROJECTS

AI-Powered Real-Time Customer Support & Ticket Prediction System
Java, Spring Boot, MySQL, JavaScript, Bootstrap, WebSocket, AI/ML, NLP, RAG
- Developing an AI-powered support system for ticket classification, priority prediction, sentiment analysis, and intelligent response suggestions.
- Exploring NLP, RAG, and real-time communication for automated support and intelligent ticket management.

NITTTR Portal
React.js, Spring Boot, Java, MySQL
- Developed a web portal with CRUD functionality for managing institutional data.
- Integrated React.js frontend with Spring Boot backend and MySQL database, with API integration, validation, debugging, and responsive UI development.

Smart Cradle with Baby Monitoring System using IoT
IoT, Sensors, Microcontroller, Python
- Developed an IoT-based smart cradle concept to monitor temperature, movement, and crying-related conditions.
- Performed functional testing of sensor inputs, alerts, data transmission, and system responses under normal and edge scenarios.

CERTIFICATIONS & ACHIEVEMENTS

- Java Database Connectivity (JDBC) — Infosys Springboard
- 1st Prize, 4th NCTIACS-2025 for the paper “AI & IoT in Infant Care: Revolutionizing Baby Monitoring with Advanced Technology.”
- 1st Prize, International-Level Seminar Paper Presentation for “AI Integration in 5G Technology.”
- 3rd Place, Anna University Zonal Chess Tournament
